

Distance ERP Classes for Professionals

Already In ERP?

If you are already working in the ERP area and you'd like to expand your ERP skills, we offer all of our graduate courses via distance learning!

Interested In Getting In To ERP?

If you are a working IT professional who'd like to get into the ERP area, our graduate course sequence, starting with ERP 346, is available via distance learning!

Seeking Graduate Certificates?

All our graduate ERP courses are available via distance learning.

An ERP Graduate Certificate requires four courses:

ERP 346*

ERP 446

two additional 300- or 400-level ERP courses.

*If you already have work experience equivalent to the ERP 346 course, we can substitute an alternative ERP graduate class.

A Business Intelligence Graduate Certificate requires four courses:

ERP 345

IST 444/ERP 444

two additional courses from the following list:

ERP 346

ERP 348

ERP 442

ERP 448

IST 443

IST 445

Admission:

Admission to a graduate certificate program requires proof of completion of an undergraduate degree. Students who do not have all of the prerequisites necessary to take the courses in their chosen certificate program will be allowed to take "bridge" courses at either the graduate or the undergraduate level in order to prepare for the necessary certificate courses, prior to starting the certificate courses. Students intending to enter the graduate program corresponding to the certificate must complete all prerequisites to that program before being admitted to it.

Entrance into IST M.S. Graduate Program or MBA Program:

A student that completes a Graduate Certificate at Missouri S&T, having earned a grade of "B" or better in each of the certificate courses, may be admitted to the M.S. program in Information Science & Technology or to the MBA program. The normal application process will be followed, but the minimum undergraduate GPA and GRE score requirement will be waived. Normal course prerequisites still apply.

Seeking A Master's Degree In Information Science & Technology?

Each of the Graduate Certificate courses can count toward an M.S. degree. The degree requires 10 courses, four of which are:

IST 461

IST 436

IST 351

IST 385

The remaining six must include at least three 400-level courses.
